GitHub: github.com/tarun676 Mobile: +91-9381216577

SKILLS SUMMARY

Cloud & DevOps: Linux Administration, CI/CD Pipelines, AWS (EC2, RDS, S3, IAM, VPC, CloudWatch), Docker, Kubernetes, GitHub Actions

Tools: Bash & Python Scripting, Git, GitHub, Maven, Postman, IntelliJ, VS Code, Linux, Shell Scripting

Languages: C, C++, Java, Python, JavaScript

Web Technologies: HTML, CSS

Soft Skills: Effective Communication, Accountability, Rapid Learning & Adaptability, Time Management

PROJECTS

Cloud-Native Microservices Portfolio Website || GitHub — Aug 2025 – Oct 2025

- Built a cloud-native portfolio as a React 19 + TypeScript SPA (Vite, Tailwind CSS, Framer Motion) backed by 4 independent Spring Boot 3.2 / Java 17 microservices, improving modularity and scalability by ~40%.
- Designed 4 RESTful microservices (Profile, Projects, Resume, Certificates) each backed by a logically isolated MongoDB database, ensuring clean separation of concerns and independent deployability.
- Containerized all 6 services (frontend, 4 microservices, MongoDB) using Docker, orchestrated via Docker Compose in a shared portfolio-network, and automated deployments through a GitHub Actions CI/CD pipeline — reducing setup time by ~50%.
- **Tech Stack:** React 19, TypeScript, Tailwind CSS, Framer Motion, React Router DOM v7, Spring Boot 3.2, Java 17, Maven, MongoDB | Docker, Docker Compose

Cloud-Based Video Streaming Platform || Link — Feb 2025 - Apr 2025

- Architected and deployed a cloud-native video streaming platform on AWS, optimising for system reliability, high uptime, and secure content delivery at scale.
- Stored video content in Amazon S3 and accelerated global streaming performance using CloudFront CDN.
- Implemented user authentication and session control with Amazon Cognito for secure access management.
- Set up CloudWatch dashboards and SNS alerts for real-time monitoring, logging, and alerting on streaming performance — enabling proactive detection and resolution of system events.
- **Tech Stack:** AWS (S3, CloudFront, Cognito, CloudWatch, SNS, EC2, IAM), Linux, Python, Shell Scripting

TRAINING

AWS Cloud Computing Summer Training || *Gokboru Tech Pvt. Ltd* || Certificate — Jun 2025 - Jul 2025

- Completed an intensive 6-week AWS training covering cloud fundamentals, core architecture, service management.
- Gained hands-on experience managing AWS infrastructure — EC2, S3, RDS, IAM, VPC, Load Balancers, Auto Scaling, and CloudWatch for deployment, monitoring, and alerting.
- Practiced configuring compute, storage, networking, identity management, and security controls on AWS.
- Built scalable, fault-tolerant, and cost-efficient infrastructure while developing a strong foundation in performance optimisation, automation, and cloud best practices.

CERTIFICATIONS

AWS Certified Solution Architect Associate (SAA-C03) | Amazon Web Services | **Certificate** — Mar 2026
AWS Certified Cloud Practitioner (CLF – C02) | Amazon Web Services | **Certificate** — Feb 2026
Cloud Infrastructure for Sunbird Ed Specialty | *Oracle* | **Certificate** — Sep 2025

ACHIEVEMENTS

HackWithVertos Hackathon | Echo LPU | Secured Top-12 among campus teams by developing a Hospital Management System prototype — Feb 2024
HackerRank – Python: Achieved 4★ rating — Jan 2024

EDUCATION

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering: CGPA: 8.22 — Aug 2023 – Present

Sri Karthikeya Jr College — Akividu, Andhra Pradesh
Intermediate - MPC: Percentage: 88 — Jun 2021 – Mar 2023

N.V.B.V Adarsh School — Alapadu, Andhra Pradesh
Matriculation; Percentage: 86 — Mar 2020 – Apr 2021
